1. Generally. Building inspection fees for construction, alteration, or repair of buildings or structures shall be based upon the total cost of the proposed work, including any subcontractors. In no case shall the total cost be less than the market value of similar completed work in the town as determined by the appropriate inspector. Inspection fees shall be calculated on such basis of cost in accordance with the above fee schedule. Permit fees are based on the cost of construction using a multiplier between \$1 and \$5 per (\$1,000) one thousand dollars of construction.
 - a. Basis For Determining The Cost Per Square Foot. The Southern Building Code Congress (BCC) International Building Valuation Data, International Building Code, published biannually, shall serve as the basis for determining the cost per square foot for such work. The averages are adjusted periodically by the BC C to reflect national trends.
 - b. *Multiplier. The Town of Spring Lake uses a multiplier per \$1,000 of the most current Building Safety Journal (BSJ) published square footage construction cost.

SAMPLE CALCULATION: Using the Building Valuation Data and a standard multiplier of \$3.00 per thousand dollars of calculated cost and an 11,080 sq ft structure with 3 floors, type VA construction, Group R-2 the formula is as follows:

$$11,080 \text{ sq ft} \times 3 \text{ floors} = 33,240 \text{ sq ft} @ \$91.19 \text{ per} = \$3,031,155.6 / \$1,000 = \$3,031.15 \times 3 = \$9,093.46 \text{ BUILDING PERMIT COST}$$

2. Homeowners Recovery Fund. Whenever a permit is issued for the construction of any single-family residential dwelling unit (house, condominiums, townhouses) or for the alteration of an existing single-family residential unit, a fee in the amount of \$10 shall be collected from the applicant. The town shall forward \$9 of each fee collected to the North Carolina Licensing Board for General Contractors. The town shall retain \$1 of each fee collected.
3. Moving Buildings. The permit fee for moving buildings shall be \$50.00
4. Time Limitation on Validity of Permits. All permits issued under this section shall expire by limitation six months after the date of issuance if the work authorized by the permit has not been commenced. If, after commencement, the work is discontinued for a period of 12 months, the permit shall immediately expire. No work authorized by any permit which has expired, shall be performed until a new permit has been secured.
5. Changes in Work After Issuance of Permit. After a permit has been issued, changes or deviations from the terms of the application and permit, or changes or deviations from the plans or specifications involving any work under the jurisdiction of this section or of any regulatory code, shall not be made until specific written approval of such changes or deviations had been obtained from the appropriate inspector.
6. Construction Starting Prior to Issuance of a Permit. If any construction is started prior to the issuance of a permit, then the permit fee shall be double the regular permit fee.
7. **Minimum Fee.** The minimum fee for any building permit is \$30.00.

Water and Sewer Schedule of Fees

ADJUSTMENT POLICY.

When requested, leak and break adjustments may be granted. Customers are allowed one (1) adjustment in any one calendar year. You must provide the Town with a statement of repair from a plumber. In the event that the resident or landlord repairs the leak, a receipt showing the purchase of plumbing supplies and a statement from the individual who actually made the repair must be provided to the Town.

DELINQUENT ACCOUNT POLICY.

Meters are read and bills are calculated on a monthly basis. Billings are mailed by the third day of each month. Account balances are due and payable on the tenth (10th) day of the month. If account balances are not paid by the close of business on the eighteenth (18th) day of the month, a \$25.00 late penalty will be assessed to each account. If the eighteenth (18th) falls on a Saturday, Sunday or a holiday, the late penalty will be added at the close of business of the first working day thereafter. If the account balance remains unpaid following the close of business on the twentieth (20th) day of the month, utility service is subject to disconnection. Accounts with a balance of thirty dollars (\$30) or less will not be subject to disconnection.

Customers whose service has been disconnected for nonpayment of bill for the second time will be required to pay their current balance due and increase the amount of their deposit on file to the next tier of deposit amount not to exceed the current maximum required.

RETURNED CHECK POLICY.

In the event that the Town receives a return check on an account, the return check fee of \$25.00 will be added to the account. Should the account remain unpaid on the eighteenth (18th) day of the month or the account fall in delinquent status due to the return check, the account will be assessed a late fee and be subject to disconnection. Upon receipt of a returned check, the Town shall mail notification to the customer of the return, note the date that the customer must bring their account current, and the balance due on the account. If an account incurs three return checks, the account shall be placed on a "cash only" status.

UTILITY DEPOSITS.

All customers shall submit an application for new utility service. Individual customers should present a valid identification and social security card. Individual deposits are refundable and will transfer from a location within the Town's jurisdiction to another location within the Town's jurisdiction. Once individual water service is terminated, the deposit will be applied to the individual customers account balance and any credit balance in excess of \$3.00 will be refunded to the individual customer.

Any final bill with a balance due to the Town less than \$3.00 will not be billed to the individual customer.

The following tiers of deposits shall apply to residential utility accounts:

Tier 1	\$ 50.00	Minimum deposit for homeowner with good credit
Tier 2	\$ 100.00	Minimum deposit for renter with good credit
Tier 3	\$ 200.00	Minimum deposit for all with bad credit

Managers of multiple residential units may request the establishment of corporate accounts. These accounts would be covered under a master deposit established by the management and will be based on the number of units under their direct control.

UTILITY CONNECTION FEES.

The fee structure for connecting onto the Town of Spring Lake utility system may include any of the following charges:

Tap Fees

Tap Fees allow the customer the opportunity to connect to the town’s water / sewer system. These fees cover the costs associates with installing a tap onto the town’s utility lines.

Residential Water Tap		Residential – Irrigation		Residential Sewer Tap	
Size	Tap Fee	Size	Tap Fee	Size	Tap Fee
3/4”	\$900.00	3/4”	\$450.00	4”	\$1,050.00
1”	\$950.00	1”	\$500.00	6”	\$1,750.00

When front footage of a lot is covered to install a water tap, a fee of \$8.00 per foot will be added. When front footage of a lot is covered to install a sewer tap, a fee of \$12.00 per foot will be added.

Combined Water and Sewer Taps are available for residential structures only. The tap includes a 3/4” water tap and a 4” sewer tap at a cost of \$435.00.

Commercial developers/owners may contract with a licensed utility contractor to install water and sewer taps according to the Town of Spring Lake standards and specifications. The developer/owner shall pay an inspection fee of \$50.00 for each tap and coordinate all activities with the Inspection Department.

Commercial sewer taps and any water tap that is greater than 1” will be billed in to the following schedule:

Type of Fee	Hourly Rate
Supervisor	\$24.25
Regular Employee	\$16.75
Equipment	See Current Federal Emergency Management Agency Schedule

At the discretion of the Town of Spring Lake additional supporting documentation (such as actual flow / flow restriction devices / engineering reports) may be submitted to mitigate fees. Based on the information submitted to the Board, further determination may be considered as to a specific project or development.

If you are required to get a water and/or sewer extension permit from NC DENR the Town will require that you extend the service(s) to the boundaries of the property. If you choose to have the Town do this work it will be billed at current prices (quote upon request).

Tap fees are applied if the Town has (or will) install(ed) the service(s) to the property. If you connect to the existing service line at your own expense, no tap fee is assessed.

All Impact Fees are split equally between water and sewer unless otherwise noted.
